Zhenxi Mi

UX/UI Deisgner

Passionate about AI & IoT, emerging technologies, and bringing ease of life
2 years experience in UX/UI design and front-end development
3 years experience in innovative design project management

EXPERIENCE

Present — **UX/UI Deisgner**
MetTel Bruin Platform, New York

- Executed UX and UI design for enterprise applications, collaborated with cross-functional teams on user-centric design process, and front-end implementation in production environment.
- Lead designer on automated email notification project, and developed HTML markup templates.
- Contributed to establishing the design language system.

2015 – 2016 — **UX/UI Deisgner - Freelance**
Chinese Palate, Swipe Technology, KT-International, New York

- Designed mobile application UI and UX for startup companies. Produced wireframes and prototypes in various fidelities, and high definition user interfaces for production.

2011 – 2014 — **Production Executive**
La Mode en Images China, Beijing

- Managed projects for high-end fashion brands, proven ability to work on large and complex projects with $10+ million budgets.
- Acted as multi-functional liaison in collaboration with designers, clients, venue providers, and manufacturing vendors.
